

Dipankar Barik

Full-Stack Developer (MERN) — AI & ML Enthusiast

dipankarbarik2002@gmail.com — [linkedin.com/in/dipankarbarik](https://www.linkedin.com/in/dipankarbarik) — [Portfolio](#)
Egra, West Bengal, India

Professional Summary

MERN stack developer with hands-on experience in building scalable, production-ready web applications. Skilled in developing RESTful APIs, secure authentication systems, and responsive user interfaces using React and Tailwind CSS. Experienced in full-stack development and AI-assisted platforms through industry internships. Known for clean code, performance optimization, and strong ownership of deliverables.

Technical Skills

Languages: JavaScript, Python, C

Frontend: React.js, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js

Database: MongoDB

Tools & Platforms: Git, GitHub, Figma, REST APIs

Concepts: Full-Stack Development, Authentication, API Optimization

Experience

Gameonix Esports & Gaming

July 2025 – October 2025

Frontend Web Developer Intern

- Improved UI/UX components for production applications, enhancing usability and visual consistency.
- Developed responsive frontend features using React, ensuring cross-device compatibility.
- Collaborated with designers and backend engineers to deliver optimized user-facing solutions.
- Resolved complex UI logic issues, improving overall application stability.

Euphoria GenX

July 2025 – September 2025

MERN Stack Developer with AI Intern

- Built full-stack modules for **CareerNexus**, an AI-powered professional networking platform.
- Developed RESTful APIs and authentication systems using Node.js, Express, and MongoDB.
- Optimized backend performance, reducing API response time by approximately 20%.
- Integrated AI-assisted features in collaboration with cross-functional teams.

Projects

CareerNexus – AI-Powered Professional Networking Platform

[GitHub Repository](#) — [Live Demo](#)

- Designed and developed a scalable MERN-based platform connecting job seekers, recruiters, and mentors.
- Implemented secure authentication, role-based access, and REST APIs.
- Integrated AI-driven recommendations to improve user engagement.

Additional MERN Projects

- Developed 10+ deployed projects focusing on CRUD operations, authentication, and responsive UI design.
- GitHub: github.com/Dipankar-source

Education

Brainware University

August 2023 – July 2027

Bachelor of Technology (B.Tech) in Computer Science Engineering

Chakbhabani Madan Kishore Niradamoyee Vidyayatan

Secondary and Higher Secondary Education (Science)

Core Strengths

Critical Thinking — Ownership — Problem Solving — Clean & Maintainable Code — Team Collaboration
